

## PUFFY PAINT

### INSTRUCTIONS:

Place approximately 1 tablespoon of flour, 2 tablespoons of shaving cream and 2 tablespoons of PVA Glue into a cup.

Squeeze your chosen colour of paint into the cup and slowly together. You don't want to lose too much air from the shaving foam.

Using a spoon transfer the mixture into the zip lock bag, pushing it right down to the bottom. Then seal the bag, letting as much air out as possible.

Secure your bag using cello tape.

Cut a small triangle off the corner of the bottom of the bag, now squeeze the paint onto the paper to make your picture.

### EQUIPMENT:

- ☐ Paint
- ☐ Shaving Foam
- ☐ Tablespoon
- ☐ Flour
- ☐ Paper
- ☐ Zip Lock Bags or Piping Bags
- ☐ PVA Glue
- ☐ Cello tape

### NEXT STEPS:

If you find it hard to squeeze the bag, dip a paintbrush into the mixture instead.

What shape can you make using the paint?

If you have piping bags, can you make different textures and lines?
