

CHALLENGE:

You have discovered footprints in the sand...

To continue to survive you must plan and decide what action to take now! You must decide on the following:

- What you are going to eat?
- How you will make sure no one goes thirsty?
- Where you will sleep?
- What jobs you will each do on the island?
- What rules your mini society needs to live together in peace and safety?
- What you are going to do about the footprints in the sand?

If you are playing this with other people, you must all agree on ONE action plan to survive!

EQUIPMENT:

- Paper
- Pencils
- Imagination!

GENERAL:

The Scenario:

You are the only survivors of a shipwreck and have been washed up on a desert island shore hundreds of miles from home. You have enough food to keep you going for a week and after a quick exploration of the island, you have found a supply of fresh water. The island has trees providing coconuts and bananas. There is a shaded area of caves and a sandy white beach. In the middle of the island there is a swamp; a muddy area which bubbles and gurgles with steam.

Can you create a Map of the Desert Island, this might help you when making your action plan?
