

TALKING GIBBERISH

INSTRUCTIONS:

Talking Gibberish is the art of using sounds and utterances in place of normal speech.

This activity is best done in pairs with another person trying to guess the conversation.

Decide on a topic. Players should converse as if making perfect sense, keep the conversation going but using your made-up language.

If you find it hard, start by making simple sounds such as ma, da or doo.

If this is too easy, can you write down your made-up language?

EQUIPMENT:

- Conversation Topics
