

## INSTRUCTIONS:

This is a very simple activity that can be done both inside and outside.

One Player will need to set up the treasure hunt and there are a few ways this can be done:

- ☐ Using photos- You can use photo clues to direct people to the right places. Alternatively you can challenge hunters to find certain things they need to take photos of.
- ☐ Written clues- Provide these to ensure hunters follow certain routes
- ☐ Matching objects- As part of the hunt, give hunters an object. Can they match this to something else? It could be matching or something that comes in pairs?

## EQUIPMENT:

- ☐ Activity dependent

### Map Making

- ☐ White Paper
- ☐ Tea Bag
- ☐ Small bowl of cold water

## MAP MAKING:

Why not make a treasure map?

- ☐ Dip the teabag into the water and smear it all over both sides of the white paper
- ☐ Let the paper dry and then use pens to draw pictures and routes onto your map.
- ☐ Scrunch up the paper to make it look older, then unscrunch it.
- ☐ You might want to roll it up and tie it using some ribbon.
