

## Desert Island

### Challenge:

One of your mini figures has been stranded on a desert island and needs your help for survival.

**Can you build a desert island, with all the tools for survival?**

### Plan:

What are the key features of a desert island?

What is the minifigure going to need to survive?

How is he going to get off the desert island?

### Build Tips:

The conditions on a desert island can be tough. If you build on the main beach, it may not be there in the morning.

Couple of things to think about:

- Tide
- Heat
