

Landmark Challenge

Challenge:

This challenge is going to test your skills when building tall structures.

Can you build an Eiffel Tower replica?

Plan:

Take time to plan your build, review pictures of the Eiffel Tower and write down the key structural design aspects.

Planning your build effectively will ensure success in this challenge.

Build Tips:

When building tall structures, interconnect the bricks similarly to a Jenga tower. Crosshatching the bricks will add strength and stability to your build.

Think about weight distribution and using a strong base in which to build from.
